# Introduction

## Who We Are

*Mission Rescue Pakistan (MRP) is a neo-generation, non-political movement, driven by responsible citizens who realize their responsibility and necessity to contribute towards addressing social issues crippling our society today. The foundation was laid down by three friends on August 14th 2008. The word “Mission”, says it all. We need to safeguard Pakistan and take precautionary measures to protect it from diseases like poverty, hunger, education, ethnic, racial issues on Emergency basis.*

# Engagements

On a short term basis: You will find the disaster management wing of MRP busy holding camps like Earth Quake Relief Camp-Baluchistan (previous) or Camp for Displaced People of Swat (current).

- It also includes creating awareness through various talk shows on FM, TV or articles through print media. Recently done Peace Walk on Feb'09 was also towards the same goal.

On the long term: The big idea of this is to create a society which educates everyone, provides equal employment opportunities and instills a greater sense of national duty for all of Pakistan.
